Changing Young Lives Foundation (CYLF)

Tutorial Service for Local Underprivileged Children Evaluation

This is a joint project with Rotary Club of Osaka Jonan, Japan. The target beneficiary of Changing Young Lives tutorial service are students, aged 6 to 14, attending schools in the neighbourhood of Sham Shui Po. They are mainly new mainland immigrants and those from the low-income or single parent family. Most students were falling behind in school and did not have self-discipline in completing homework and revision. Initially targeted for 40 students, CYLF managed to recruit 58 students in total by the end of the project. The tutorial service earned good reputation in the community and more students would like to join the classes. There are now 20 students on the waiting list to get in the tutorial classes.

The project was started in October 2009 and there are 4 sessions per week. 2 sessions are funded by Rotary Club of Hong Kong Island East and the other 2 sessions are self-supported. Originally, each session is 2 hours long, running from 3:30 pm to 5:30 pm. It is now separated into 2 parts each day, running from 4:00 pm to 5:30 pm and from 5:30 to 7:00 pm. There are four students of Rotaractor Club of Lingnan University participated in the project. Cherry Chin, daughter of Hon. Sec. Eric Chin, also voluntarily served as tutor assistant from November 2009 to June 2010. This project provided an invaluable opportunity to the young generation to understand the difficulties faced by underprivileged children and their families. Three visits were conducted by our Club members involving their participations in understanding the needs, monitoring the progress of our targets and showing care to the beneficiaries. Changing Young Lives tutorial service helped 58 students to improve their academic results from schools. Some student report cards were produced as evidences reflecting the fact that some students had a significant improvement on selected subjects. It illustrated that the students can do better academically if more attention and guidance are given to them. On the other hand, some of the students are suffering from learning difficulties and attention deficit. These would affect their learning abilities and their performance at school. Small size tutorial classes, with 15 students in each class, also have taken care of these students as they would need more attention than the other students. Besides of academic results, the students gradually develop a sense of responsibility of self-revision and their learning abilities are strengthened.

In a nutshell, the Changing Young Lives tutorial service has achieved its objectives in helping children

who are new immigrants, from low-income or single parent family coupled with sufficient members' involvements. Although there were many unforeseen circumstances happened during the project, CYLF can still make it within their budget.

Subject: Golf Poem

In My Hand I Hold A Ball,

White And Dimpled, And Rather Small.

Oh How Bland It Does Appear,

This Harmless Looking Little Sphere.

By Its Size I Could Not Guess,

Or The Awesome Strength It Does Possess.

But Since I Fell Beneath Its Spell,

I've Wandered Through The Fires Of Hell.

My Life Has Not Been Quite The Same,

Since I Chose To Play This Stupid Game.

It Rules My Mind For Hours On End,

A Fortune It Has Made Me Spend.

It Has Made Me Curse And Cry,

And Hate Myself And Want To Die.

It Promises A Thing Called Par,

Even If I Can Hit It Straight And Far.

To Master Such A Tiny Ball,
Should Not Be Very Hard At All.
But My Desires The Ball Refuses,
And Does Exactly As It Chooses.

It Hooks And Slices, Dribbles And Dies,
And Even Disappears Before My Eyes.
Often It Will Have A Whim,
To Hit A Tree Or Take A Swim.

With Miles Of Grass On Which To Land,
It Finds A Tiny Patch Of Sand.
Then Has Me Offering Up My Soul,
If Only It Would Find The Hole.

It's Made Me Whimper Like A Pup,
And Swear That I Will Give It Up.
And Take To Drink To Ease My Sorrow,
But The Ball Knows ... I'll Be Back Tomorrow
