They then talked about the Joint Rotaract Club Installation, the first ever installation held between the Rotaract Clubs of HK Island East, HKCC, and Lingnan University all under the umbrella of their mother club HK Island East. It was held on 20 July at the West Kowloon Campus of Hong Kong Community College. The theme being “水火相濟,鹽梅相成”. It is a Chinese Idiom meaning that water and fire are both essential for cooking while salt and plum are necessary for marinating. It implicates that although people may have different abilities and characters, they can work together in a harmonious way and complement each other with strengths. Then PR Director Joy presented their year plan focusing on the activities and projects they planned for their year.

Dir William then thanked everyone participated, shown us a video where he interviewed the participated Rotaractors after the trip on the train back. It also showed that the students of Du Tau Village School felt really sad when our Rotaractors had to leave.... a bond began subtly even with a few days encounter. All of them felt the trip was fruitful, and that there are still a lot of less fortunate people they can serve. He then proceed to present the service project he discussed with the Principal Yao --- namely the refurbishment of the sports facilities. The cost presented was RMB6,250 or HK\$8,150. LAUGH FOR THE WEEK

A man came home late at night after a party.

His wife yelled: "How would you feel if you don't see me for two days?"

The man couldn't believe his luck.

He blurted out: "That would be great!"

Monday passed and he didn't see her, Tuesday, Wednesday and Thursday passed too.....

On Friday his swelling became better and now he could see her from the corner of one eye.

One day, a man walks into a dentist's office and asks how much it will cost to extract wisdom teeth. "One Thousand Dollars," the dentist says. "That's a ridiculous amount," the man says. "Isn't there a cheaper way?" "Well," the dentist says, "if you don't use an aesthetic, I can knock the price down to \$700." Looking annoyed the man says, "That's still too expensive!" "Okay," says the dentist. "If I save on anesthesia and simply rip the teeth out with a pair of pliers, I can knock the price down to \$400." "Nope," moans the man, "it's still too much." "Well," says the dentist, scratching his head, "if I let one of my students do it, I suppose I can knock the price down to \$100." "Marvelous," says the man, "book my wife for next week!"
