PP Norman was invited to introduce our speaker HS Carl:

Carl Yau is now the Hon Secretary of Rotary Club of Hong Kong Island East which he joined last year. He works for Portalvision Limited which produces Social CRM software and business applications. Sociogrid is one of their latest business social networking applications. He would show us how the social networking platform can help our Club to automate some of the club secretary's works and enhance communication among club members, which include update member profiles, create event reminders, make announcements, check meeting time and venue, share photo/documents, and more.

HS Carl then began to introduce what Sociogrid is for:

A social networking platform for companies, organizations, and clubs to connect people in work and business while Facebook is to connect friends when they are at leisure. He explained this platform can be further developed to automate some works of club administration and secretary (like auto event reminders, self-service member profile update) as well as strengthening the relationship amongst members (like sharing ideas, photos, links and documents).

He went on to show how members can be added to a network through private invitation and invitation/importing as membership is strictly controlled by network admin unlike other public social networks.

He demonstrated how to publish Events and Announcements, especially by using 'Clone' function for regular luncheon meetings as the time and location are usually the same. Members can also invite personal guests easily. RSVP function is also available for members to confirm their presence to an event.

Members can also send private messages one-to-one or one-to-many. Members can also update their own member contact and profile anytime. Hence the member directory is always up-to-date. Members can also organize themselves into public or private groups like board of directors, community service group, to have their own internal communication like exchanging ideas, suggestions and documents. Furthermore the core network can be extended into daughter networks say, our Rotaractor and Interactor networks.

One of the distinguishing features of Sociogrid from Facebook group is its ability to be further integrated with business apps or custom apps. For example, its Sociogrid mobile apps which are freely available in iOS AppStore for iOS devices and Google Play for android devices. He walked through the steps on how to search and download the Sociogrid app, as well as how to login Sociogrid app. It's very useful to post instant message, search people contact info, check events and announcement details.

He helped members one by one to login the Sociogrid and members sent out their first posting to the Sociogrid.

After Pres. Jonathan presented our gift to HS Carl as token of appreciation, PP Rudy officially thanked our speaker for a very informative and useful talk about the use of Sociogrid. He also suggested to give away the basic program but charge handsomely for the peripheral services.

Pres. Jonathan urged all members to come next week for the vocational talk by our new member Rtn. Charles Man.

Pres. Jonathan then proposed a toast to RI couple with RC of Kowloon Golden Mile and Hong Kong Island East. Meeting was adjourned timely and all attended were invited to a group photo.

LAUGH FOR THE WEEK

Subject: Son-in-Law

A girl brings her boyfriend home to meet her parents. After dinner, her mother tells her father, a business tycoon, to find out about the young man. He invites the boy to join him for green tea in his study.

"So what are your plans?" the father asks the boy.

"I am a religious scholar and want to marry your daughter," he replies.

"A scholar," the father says. "Admirable, but what will you do to provide a nice house for my daughter to live in, and to which she is accustomed?"

"I will study," the young man replies, "and God will provide for us."

"And how will you buy her a beautiful engagement ring, such as she deserves?" asks the father.

"I will concentrate on my studies," the young man replies, "God will provide for us."

"And children?" asks the father. "How will you support children?"

"Don't worry, sir, God will provide," replies the boy.

The conversation proceeds like this, and each time the father questions him, the boy insists that God will provide.

Later, the mother asks, "Well, how did it go?"

The father answers, "He has no job and no plans, but the good news is that he thinks I'm God."
