District Rotaract Advisors Sharing session

Hosted by District Rotaract Committee Chair (DRCC) Silva Yeung and District Rotaract representative BY Wong on October 19, 2013 in Youth Square Rotaract Center.

The objective is to build up a regular communication between District Rotaract Committee and all Advisers in Mother Club (Rotary Club) of Rotaract Clubs.

Topic of sharing:

What is the role of Rotaract Advisor?

Procedures of setting up a new Club; and

How can Rotary Club and Rotaract Clubs be a partner.

PP Eric Chin represented the Club to participate in the discussion and suggested to the Committee for strengthening the communication by including the notices from the Committee to all advisers of Rotary Clubs and to provide regular training to advisers in district level.

Rtn. William Wong reported on the November 8, 2013 Happy Lunch for Choi Jun School
This report was submitted and appeared in last week's Tung Feng Bulletin.

PP Andy Wong reported on RI Convention in Sydney, Australia of June 2014
Further information will be forthcoming.

Rtn Avis had a pleasant duty to introduce the speaker, Rtn Charles Man on his vocational talk.

Rtn Avis used to know Rtn Charles in the 1980s, on their childhood. They reunited in the workplace in 2008, in Hutchison Telecom. Rtn Charles had many talents, such as his guitar playing, singing from the live band. Rtn Charles was appointed business director for mobile applications.

Rtn Charles talked about his late father vividly who had much influence on his character moulding such as being inquisitive, go for fun, and being grateful to life. Rtn Charles's father was an experienced market researcher, that Rtn Charle took after him after his graduation from Brisbane.

Rtn Charles also talked about his mother and his younger brother and two sisters, who were all in Brisbane, Australia. All his family migrated to Australia in 1996 and acquired their citizenship there. Rtn Charles went back to Hong Kong 10 years ago and had a profession of market research and telephone sales, and joining Hutchison Telecom since 2009.

Rtn Charles gave us an interesting talk of his telecom industry experience and the possible trends as follows:

Hutchison Telecom had 30 years of communication businesses, starting from paging, mobile phone, fixed line and VoIP, and now very much in mobile data, m-commerce as well as in the digital contents business.

Rtn Charles suggested the traditional voice market of devices and networks, gradually shifting to the data boom, more with digital contents and cloud storage. The consumers (both local and visitors from abroad) were demanding more, such as for 4G/LTE faster speed, greater contents, and more security. Nevertheless, that might bring forth a better opportunity to get healthy growth in 2012 from Average Revenue Per User (ARPU) figures from the subscribers, who had continued to adopt smartphone and tablets, also with substantial growth in value added services and mobile contents.

Rtn Charles found the threats and opportunities from Over-the-top (OTT) mobile VoIP businesses (such as from Skype, WhatsApp etc) as well as from the Wi-fi businesses. Their growth of acceptance opens door to more competition and threats to traditional voice market, but creating new opportunity for business partnership as well as for future M&A opportunities.

Rtn Charles pointed out an interesting fact that most telecom operators were offering similar network services, mobile devices and not much differentiation. But now with the latest opportunity with NFC (Near Field Communication) mobile payment, and partnership opportunity with OTT players, the telecom operator could take advantage of their software experience, consumer insight, scalability and cloud storage, to meet with the consumer service demands with more rapid response.

Rtn Charles highlighted some interesting statistics from OTT players and the importance of their partnership, such as the WhatsApp had on average 100 billion messages per day, and with 3.5 million active users in Hong Kong. Whereas the Skype (acquired by Microsoft) had 560 million users worldwide, and among them 8.1 millions of paying users. The Wechat (from Tencent) from China also had 400 million users, even with voice application.

A good tips to our members was to download some Data Metering Application to the mobile, to watch closely on the future mobile data usage, as a trend to do away with the unlimited data plan, only to be replaced by the tiered data pricing strategy by the telecom operators in Hong Kong.

PP Eddy Wong thanked our speaker in the usual Rotary manners, for his informative talk and fluent presentation. Pres. Jonathan presented Rtn Charles with his photo in action, and reminded us the next week program was our PP Hubert on his Kungfu topic. SAA Jonah reported the red box collection was HK\$1,300.

Pres. Jonah made a toast to RI coupled with Hong Kong Island East, and invited the members and guests to stay for a group photo before the luncheon was adjourned in time.

LAUGH FOR THE WEEK

THE HEART ATTACK

A blonde gets home from work early & hears strange noises coming from the bedroom.

She rushes upstairs only to find her husband naked lying on the bed, sweating and panting.

'What's up?' she asks.

'I think I'm having a heart attack,' - cries the husband..

The blonde rushes downstairs to grab the phone, but just as she's dialing, her four-year-old son comes up and says, "Mummy Mummy Aunty Shirley is hiding in the wardrobe & she has no clothes on".

The blonde slams the phone down and storms back upstairs into the bedroom right past her husband..Rips open the wardrobe door and sure enough, there is her sister, totally naked and cowering on the floor.

'You rotten Bitch', she screams.

'My husband's having a heart attack, and you're running around naked playing hide and seek with the kids!!'
