IT Chair Anthony introduced our speaker for today who was Mr. Eric Cheung of China Light & Power who would speak on their Green Plus Program. The title of his talk was “Powering SMEs the Energy Efficient Way”.

He opened his talk by introducing CLP’s plans for **Climate Vision 2050**. China Light and Power (CLP) have plans of lowering the CO2 Emissions Intensity of Industries from 0.84kg CO2/kWh in 2007 to 0.2 kgCO2/kWh by year of 2050 and a non-carbon Emission target of 1% in 2007 to 20% by 2050.

But focusing solely on generation side is not enough but should come with greater efforts to promote Energy Efficiency and Conservation (EE &C) on the demand side. They planned to promote Energy Efficiency and Conservation with the community, business customer and residential customer also. They also planned to hold energy audits for business customers & Energy Efficiency Loan scheme. CLP established an interest free loans fund of HK\$125M over 5 years (2009-2013) to assist commercial, industrial and non-governmental customers to implement energy saving projects.

CLP have also promoted their Green Plus Program. This program aims to help SME organization to improve energy efficiency by offering advice to them and also provide them promotion channels to disseminate information. This program offers help on:

- 1) Renewable Application Audit
- 2) Customer Energy Checkups
- 3) Advisory Service for Energy Efficient Building Designs
- 4) Energy Consumption Analysis.

One of these Green Plus Success story is Aquaculture Technologies Asia Ltd. A 3,000 sqM fish farm located at Lau Fau Shan with an annual production of 80,000 grouper fish per year. This was done with energy efficiency improvements measures for heat pump, variable speed drive, solar panels, T5 lighting and evaporation cooler. This resulted on a 20% energy savings, 75 tonnes of carbon emission reduction per annum, all with a 2 years payback on investments.

There were similar savings also shown for other industries such as;

- 1) Spastic Association of HK
- 2) Tai On Chicken Farm
- 3) Cool Kitchen Restaurant
- 4) Tung Fong Hung

LAUGH FOR THE WEEK

Subject: A Judge's Dilemma, can you help?

In a small town, a person decided to open up a brothel which was right opposite to a church.

The church and its congregation started a campaign to block the brothel from opening with petitions, and prayed daily against his business.

Work progressed. However, when it was almost complete and was about to open a few days later, a strong bolt of lightning struck the brothel and it was burned to the ground.

The church folks were rather smug in their outlook after that, until the brothel owner sued the church authorities on the grounds that the church through its congregation's prayers was ultimately responsible for the destruction of his brothel, either through direct or indirect actions or means.

In its reply to the court, the church vehemently denied all responsibility or any connection that their prayers were reasons for the act of God.

As the case made its way into court, the judge looked over the paperwork at the hearing and commented: "I don't know how I'm going to decide this case, but it appears from the paperwork, we have a brothel owner who believes in the power of prayer and we have an entire church that doesn't."

我覺得好開心，可以認識到林先生同埋 Nancy 姐姐，又能夠試到各種美食。希望下次可以主動些同人傾談~

我覺得今次食飯很有趣，但自己有些緊張，不過嘉賓很會關心別人。第一次和嘉賓吃飯，感覺已如舊朋友般。希望自己下次能多說一點話，與嘉賓分享自己的事。

我覺得好開心，因為可以識到好多朋友。在活動中，可以學習到與人溝通的技巧同埋餐桌禮儀。今次我哋可以自己搭車去食飯嘅地方，實踐到課堂的知識，真係好開心！
