President's Message

This past weekend was the Rotary International Convention in Seoul, and I regret to say I could not make it due to the clash with a long-planned overseas business trip to Germany. But judging from the photos, a great time was had by all. DGE Eric, naturally was there and in fine and lively form. As was IPP Norman. By all accounts quite a number of District 3450 representatives were there to fly the flag for us all, especially given the close proximity of the host city this time. I hope a number of us can make it to the next one which will be in Atlanta USA, so let's start planning way in advance. For newer members it's the chance to see what Rotary is all about, and just how big and strong an organisation we are.

THE ROTARY CLUB OF HONG KONG ISLAND EAST

香港東區扶輪社週報

Club 16340 District 3450 Chartered on 06 April, 1954 by Charter President

PDG (Uncle) John Yuen

SPOTLIGHT ON - Forensic Dentistry

Dr Carl began by explaining how he got into this line of work, stating that it was at HKU that his eyes were opened to forensic dentistry, especially with the encouragement of the late Prof Ron Fearnhead, the founding Professor of Oral Anatomy at HKU and founder of the Hong Kong FOG. His connections with HKU and the Prince Philip Dental Hospital have never stopped since his BDS graduation in 1990, and he even returned to be one of the first batch of graduates of the MSc in Implant Dentistry in 2008. The hospital has provided a small laboratory for the Hong Kong FOG since its inauguration in 1983, and Dr Thomas Li and staff of the Oral Radiology Unit have provided unfailing support. He also explained "Forensic dentistry or forensic odontology is broadly the use of dental evidence for identification or legal purposes. It's a very fulfilling field and uses both my interests in dentistry and law. Among my activities, I advise INTERPOL and am a consultant for the Hong Kong Forensic Odontology Group (FOG) and many groups in Southeast Asia and around the world. International cases I've helped with include identifying victims of the 2004 Asian Tsunami and 2002 Bali bombings. Forensic dentistry is a relatively young but increasingly important branch of dentistry. I feel both privileged and proud to receive the Hon FRCP, and hope it helps me to raise the profile of the field even more". Dr Carl then went on to give some examples of famous cases, especially Hong Kong murder cases, where it was forensic dentistry that solved the mystery, including some grisly details of how. A very unusual and interesting talk.

ABOUT THE SPEAKER

Dr Carl Leung received his dental education in Hong Kong and his forensic training in Melbourne and London. He started his career in forensic dentistry in South East Asia since 1988. Currently he is a member of the central committee of the Chinese Forensic Medicine Association in China and is also the president of the Hong Kong Forensic Science Society. Academically he is an honorary professor in forensic science of Tung Wah College and an honorary assistant professor in psychiatry in Li Ka Shing Faculty of Medicine, University of Hong Kong. Apart from his forensic career, Dr Leung has extensive administrative experience in medical and dental fields. He is a member of management boards in public hospitals, Chinese medicine clinics, dental groups and health industry.

Last week's Proceedings - 25 May 2016

With President William on travels in Europe, it was the turn of PE Chris to step up and chair the luncheon. He began by welcoming everyone, and invited members to introduce their guests. PP Rudy introduced his daughter Jacqueline, who we were welcoming back as a return visitor. Rtn Simon had brought along his friend Dr.

Albert Chan, who has expressed an interest in joining our club, and PP Hubert introduced his guest and student, Grace. PE Chris also then introduced guest

speaker for this week, Dr Carl Leung, who had come to give us a presentation on Forensic Dentistry (basically, CSI for teeth..). Before that however, we had a brief visual update on recent events, with some photos, before PE Chris read out the announcements, and invited SAA Andy to announce the Red Box takings of \$700. On then to the speaker, which was a very insightful and interesting talk on the ins and outs of how dental records are used in crime investigation. Dr Carl by the way, is actually an ex Rotarian, being a previous member of RC HK North. After his talk, it was only fitting that the official thanks were given by – a dentist! Up stepped PP George, to thank the speaker from a dental perspective and after that it was a toast to RI and HKIE before the group photo.

Out & About

Rotary International Convention, Seoul

DGE Eric, PP Norman and PN Stacy were among the members representing District 3450 at the Rotary International Convention in Seoul last weekend. And it looks like a colourful and fun time was had by all.

ANNOUNCEMENTS

District Announcements

To all D3450 Rotarians who are attending the RI Convention in Seoul :

You are cordially invited to come for the group photo shooting together with DG Peter Pang at the RI Convention House of Friendship Preserve Planet Earth Booth

Place: Kintex Exhibition Center 2, Seoul at Booth number 2535/2537

Time / Date : 1 p.m. on 29 May, 2016 (Sunday) which will be half an hour after the morning Opening Ceremony finishing at 12.30 p.m.

Preserve Planet Earth is granted this FREE booth to present our *GREEN ROTARY CLUB* and what we in D3450 have done on preserve planet earth as well as bring out the important question - ARE YOU GREEN!!!

Hope to see you all at the booth and have a safe and joyful trip in Seoul.

THE LAST LAUGH - Pretty good

Dear Abby,

My husband hasn't worked for the last 16 years. All he does is get dressed in the morning and hop in his fancy car to visit his cronies .

I know he`s cheated on me many times with young girls who could be his granddaughters.

I know because he brags about this to me.

He smokes fancy cigars and drinks the most expensive Champagne day and night.

We sleep in separate beds because he`s always telling me he knows I`m a lesbian and my varicose veins and big bottom turn him off!

Should I clobber him with my frying pan, or should I leave him, Abby? Your advice would be appreciated

[signed] Mad as Hell

Dear Mad as Hell

You don't have to take that kind of treatment from any man. I suggest you pack your bags and move out a.s.a.p. Don't resort to clobbering him with the frying pan, and try to act like a lady!

Rememberyou're running for President of the United States , so try acting like it!
